

Dear Children, Parents and Carers,

We would like to express how proud we are of the children and families who are adapting to the current situation so well. It has been marvellous to see all the work that is being completed at home and we would remind everyone that they can share work with teachers through admin@arden.stockport.sch.uk or via Twitter using @ArdenPrimary or the teachers own Twitter accounts.

As you will be aware, all children at school were initially provided with a home learning pack which teachers have been using to set work each week. We hope that this has been useful. As the situation regarding Covid-19 develops more home learning activities will be uploaded to our website.

In addition to the resources shared by school you may wish to access the following links for free home learning activities and further support online. The variety of work online to support children and families during this period of school closures is developing rapidly and we will endeavour to signpost you to additional support in the future.

Organisation	Website	Notes
